portfolio objectives

Our growth portfolio is a globally diversified, multi-asset class portfolio made up exclusively of ETFs (Exchange Traded Funds). It has a high equity weighting, typically 70%-80%.

The target net annual return is 5%-8%, with the portfolio currently providing a net annualised return since inception of 9.13%. The current annualised volatility of this portfolio since inception (at 12.56%) is much lower than typical equity volatility (15%-25%). The growth portfolio is suitable for those targeting long term capital growth, yet with a lower volatility than most equity investments.
